

# Every Adolescent Girl Deserves the Chance to Grow Up Healthy, Stay in School, and Achieve Her Dreams.

Too many girls are forced to leave school because of unintended pregnancy.

Too many young people are afraid to ask questions because they fear being judged.

Too many parents remain silent.

Too many communities allow myths and stigma to separate truth.

**It does not have to be this way.**

## Every Girl Deserves...

- ✓ Accurate information about growing up and reproductive health.
- ✓ Treated as an individual without judgment.
- ✓ Respectful and confidential health services.
- ✓ The opportunity to stay in school and pursue her dreams.
- ✓ The freedom to make informed decisions about her future.

## Parents, Families and Communities Make the Difference

- ✓ As parents, teachers, religious leaders, community leaders, and caregivers, we have the power to shape healthier futures.
- ✓ Start honest, age-appropriate conversations instead of avoiding difficult topics.
- ✓ Listen without judgement.
- ✓ Replace myths with facts.
- ✓ Encourage girls to seek accurate information from trusted health workers.
- ✓ Support adolescents to access respectful, youth-friendly health services when they need them.
- ✓ Protect girls from child marriage, sexual violence, and exploitation.
- ✓ Encourage boys to respect girls, make responsible choices, and become champions for healthy relationships.

**Silence does not protect our children. Information, guidance, and support do.**

# Our County Government Must Do More

Our children deserve health services that respond to their needs.

## We call on our County Government to:

- ✓ Ensure contraceptives and other essential reproductive health commodities are always available in public health facilities.
- ✓ Provide youth-friendly services that are respectful, confidential, and free from discrimination.
- ✓ Train health workers to support adolescents with dignity and professionalism.
- ✓ Invest in programmes that prevent adolescent pregnancy and keep girls in school.
- ✓ Work with parents, schools, faith leaders, and communities to provide accurate reproductive health information.

**Every missed opportunity to support a young person is a missed opportunity to protect their future.**

## Ask Your Leaders

- Are our health facilities providing youth-friendly reproductive health services?
- Are contraceptives consistently available in our county?
- What is our county doing to reduce adolescent pregnancy?
- How many girls are dropping out of school because of early pregnancy?
- What programmes are helping parents talk to their children about growing up and reproductive health?
- Is our county investing enough in protecting the health and future of our young people?

**Communities that ask questions inspire leaders to take action.**
